

A New Communication Device

BONX GRIP

**New
Field
Communication
Device**

BONX is a new kind of communication tool that combines the proprietary earphone and app to let you talk freely at any distance, in any environment.

Q1 What's BONX?

With BONX, transmission starts automatically when you speak and ends when you are done talking. You can have conversations at any moment, in any environment, just as if you were sitting next to your friend without worrying about your battery or data plan.

Q3 What're features?

Water resistance IPX5 / Shock resistance

Talk in real time with up to 10 friends

Detects the human voice precisely with minimum time

Long-life battery 7 hours

Open-back earphone lets you hear your surroundings

Multi-layered wind noise reduction

Lightweight 15g

Answer a phone when in the middle of a talk

Q4 How to use?

Simple design and operation!!

Q2 What's the difference?

	BONX GRIP	IP Phone (WhatsApp/LINE etc.)	Walkie-Talkie
Data Traffic (per hour)	approx. 5 MB ^{※1}	approx. 18MB	———
Communication Distance	Unlimited (under Network Communication)		Limited (up to output power)
Voice Activity Detection	Noise Elimination	———	———
Operability	Handsfree	Handheld	
Connection	Voice Operated Switch or Push to Talk	Always on	Push to Talk

※1 Saves battery life and reduces data usage by transmitting voice data only when you speak.
Based on a 60 minute & 1 on 1 conversation with the ratio;
Talk : Listen : Silence = 2 : 2 : 6
