Measurement

Hand-operated Digital Measuring Wheel

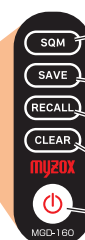

Ideal for construction sites and various inspections

Control panel & Display

Display symbols

- Calculate area from length and width
- Save the data
- Recall the saved data
- Clear the measurement
- Power

Key Features

01 Backlight

Clear visibility even in low-light conditions.

02 Simple buttons

User-friendly buttons for efficient operation.

03 Memory

Stores up to 5 measurements, no manual notes needed.

04 Auto power off

For convenience and battery saving. (10mins of no use)

05 Quick area calculation

Calculate the area by measuring two perpendicular sides. Useful for rough estimates.

*Calculated as length × width; results may vary depending on how measurements are taken and are for reference only.

Specifications

Measuring range	0.1m - 99999.9m
Resolution	0.1m
Measuring unit	m, m ²
Accuracy	±0.5%
Operating temperature	-10°C to 45°C
Wheel size	φ160mm
Memory	up to 5 readings
Power	AAA batteries × 2
Auto power off	After 10 mins of no use
Full closed / extended	approx. 66cm / 107cm
Weight	approx. 700g (incl. batteries)

Accessories

- Case
- AAA batteries × 2 (for test use)
