Accessories
for Smart Devices

*FZ-N1 is not included.

NEW

Holder
for Panasonic Toughbook FZ-N1for Poles
16 - 36
mm ϕ

Holding the device and the pole with one hand

Designed exclusively for FZ-N1

It provides an ideal fit for your toughbook FZ-N1 with or without extended battery, with simple **one-handed attachment and removal**. The structure **does not block any switches** or other terminals.

The device will be located in front of the pole. It enables you to operate the device by one hand, while checking and adjusting the verticality of the pole by the other hand.

Specifications

Pole size	16 - 36mm ϕ
Dimensions	6mm / 9mm ϕ with COV69*
Weight	approx. H165×W83×D150mm
	approx. 330g

*COV69 : Pin Pole Sliding Grip
See below for the detail.

Angle adjustable

You can easily adjust the angle with one hand. Stepless and smooth adjustment by the structure without a fixing screw.

223350	Holder for Panasonic Toughbook FZ-N1	TAB-N1

NEW

Pin Pole Sliding Grip

for DM Pin Poles
6 - 9
mm ϕ Grip adapter for DM pin pole 6mm and 9mm ϕ

For DM pin pole

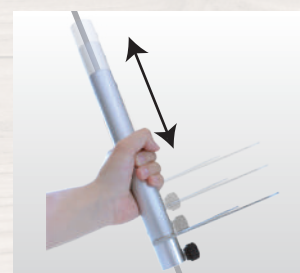

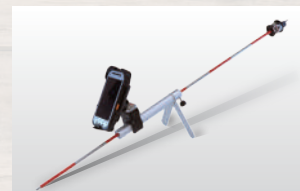

COV69 is a convertible type adapter with fixing screw for DM pin pole 6mm / 9mm ϕ . It enables you to use TAB-N1 (and other holders) with DM pin pole.

Protective legs

Removable and angle adjustable legs protect your prism and device from dirt or damage when putting it on the ground.

Slidable grip

DM pin pole is slidable through COV69 and easy to set the grip position where you like. COV69 make you less tiring when holding thin DM pin pole.

Specifications

Pole size	6 - 9mm ϕ
Dimensions	H approx. 235mm
	D approx. 44mm
	W approx. 30mm
Leg Length	approx. 150mm
Weight	approx. 226g

*COV69 is a set of a grip and protect legs.
TAB-N1, pin pole and prism are not included.

VESA Adapter

Make Your Tablet Holder
VESA Compatible

▲ Attached with arm stand
(Not included)

What is VESA?

VESA mount is a family of standards for mounting flat panel monitors and other displays to stands or wall mounts. It defines dimensions of the four-hole attachment interface on the back of displays and the screws used to fit those holes. It is implemented on most modern flat-panel monitors and televisions. It allows low-cost installation of displays into a broad range of applications.
